

THE BUTTERY

ROLE TITLE: Mental Health Nurse

LOCATION: Kempsey

About the role

Reporting to the Housing and Accommodation Support Initiative (HASI) Plus (HASI+) Program Manager, the Mental Health Nurse will provide clinical nursing service to a maximum of 10 HASI+ participants and support the development of a multi-disciplinary approach to participants experiencing comorbidity MH and physical health conditions. They will provide pre-emptive measures regarding physical health issues and work in partnership with participants and significant others, psychiatrists, support agencies and other health care providers. The role is supported and jointly delivered by the LHD Clinical Lead HASI Plus staff member, who currently works out of the HASI Plus site in Kempsey.

The HASI +program is a transitional rehabilitation and recovery-oriented, high intensity, community-based program for people with severe mental illness and significant functional impairment. The program integrates dedicated clinical and intensive psycho-social support on a 24/7 basis with stable community-based accommodation.

Hours and location: This is a full time role for 76 hours per fortnight Monday-Friday. However, a Tuesday-Saturday schedule is available with negotiation. Penalty rates are applicable to Saturday work.

About you: Selection Criteria

1. BA Nursing or Post Graduate Diploma in Psychiatric/Mental Health Nursing or a specialist undergraduate psychiatric nursing program and a current registration with AHPRA, Current and valid Driver's Licence, A satisfactory Criminal Record Check and Working with Children Check, Current COVID vaccination and current First Aid certificate
2. A minimum of three years' experience working in a mental health care setting
3. Knowledge and understanding of evidence based psychological interventions and contemporary therapies of the treatment and management of mental health disorders
4. Experience training and supporting other staff with best practice clinical methodologies.
5. Experience in proactively case managing co-morbidly of participants with MH and physical conditions
6. Demonstrated high proficiency using the Microsoft suite, a variety of databases and video conferencing applications
